Place Your Brand Firmly on the Cutting Edge with a SAGE Publishing Supplement Sponsorship

A rapid, reliable, and credible way to reach your target audience

It is the most credible source of content marketing ever created. Subjected to the rigors of peer review, your sponsored supplement will bring the credibility of a research journal issue, simultaneously aligned with your messaging and editorially-independent.

A supplement sponsorship is your chance to:

1. **Educate your audience:** speak to the bright minds, opinion-shapers, and leaders in your field with highly relevant research content

2. **Enhance your brand:** sponsoring peer-reviewed research at the highest levels of thought leadership with the SAGE brand is a recipe for credibility

3. **Strengthen your Search Engine Optimization (SEO):** your product or brand will have the perpetual benefit of mentions and links from the website of the world’s 5th largest academic publisher

4. **Be indexed:** the supplement will be searchable in relevant sources such as MEDLINE or PubMed and fully citable

5. **Gain massive reach:** your supplement is mailed to the entire subscriber base and society membership for the journal as well as digitally distributed. There are opportunities for conference exposure as well as mailings to a list of your choice
