CONTEMPORARY STUDIES IN BILINGUALISM AND MULTILINGUALISM

Five-Volume Set

Edited by Masayo Yamamoto
School of International Studies, Kwansei Gakuin University

The epoch-making advancement in bilingualism was made in 1962, when Peal and Lambert concluded that bilingual children did much better than monolingual children on both verbal and nonverbal intelligence tests. Much progress has been achieved since then, due to advances in research technology and the increasing number of people speaking a wider variety of languages. Furthermore, the field itself has expanded, including the bilingualism of languages in different modes, such as spoken/ signed bilingualism. This Major Work builds upon the previous work in the field and extensively covers the recent developments.

Volume II: Bilingualism & Semilingualism & Semilingualism

GOD AS POLITICAL PHILOSOPHER
Buddha’s Challenge to Brahminism
Kancha Ilaiyah Shepherd Retired, Director, Centre for Study of Social Exclusion and Inclusive Policy, Maulana Azad National Urdu University, Hyderabad

In this provocative and scholarly book, Kancha Ilaiyah Shepherd propounds a view of Gautama Buddha as India’s first social revolutionary. Buddha did his best to give the principles of tribal democracy and egalitarianism a sanctuary in his own sangha. In so doing, he foreshadowed modern India’s experiment with parliamentary democracy. Critical of the caste system, Buddha inducted low-caste members into the sangha and made them his trusted advisors. He gave women an honoured place in the sangha. Dissent was indeed permitted, and even Buddha was not above the law.

GANDHIAN ENGAGEMENT WITH CAPITAL
Perspectives of J C Kumarappa
Chaitra Redkar Associate Professor, Department of Political Science, SNDT Women’s University, Mumbai
This book presents the Gandhian ideas on economic development and political economy. Within this larger context, it focuses on the towering contributions of J C Kumarappa, the pioneer of the Gandhian model of economic development, and describes, from his standpoint, how the moral and political dispositions of Gandhism amount to a critique of capitalism. The book also covers in detail the major facets of Kumarappa’s contribution to Gandhism: developing a non-mechanized, non-capitalist model of industrialization; presenting the holistic development approach; reflecting on the role of the state in facilitating a village-centric economy; and exploring the role of religion in developing the moral foundation of the Gandhian political economy.
